

Providing Regulatory Submissions in Electronic Format - NDA

NDA submissions divided into three parts

- 1. Archival copy** -entire NDA in electronic format
- 2. Review copy** -portions of the NDA as paper desk copy
- 3. Review aids** -desk copy (data sets, word processing files)

NDA is a collection of individual documents

Convert each document into a PDF file

For example

**Overall summary for the NDA (item 2 on
FDA form 356h)**

summary.pdf

For example

Pharmtox study report

Two files

- **individual animal line listings (1234d.pdf)**
- **rest of the study report (1234.pdf)**

For example
Clinical study reports

One study = one pdf file

Clinical study reports

or one study provided in two pdf files

- **study report, protocol and sample CRF (09.pdf)**
- **the remaining appendices (09app.pdf)**

For each document provide Bookmarks for each section of the document's table of contents

TABLE OF CONTENTS

1.	INTRODUCTION.....
1.1.	Background Information.....
1.2.	Rationale.....
2.	OBJECTIVES.....
2.1.	Primary.....
2.2.	Secondary.....
3.	REGULATORY AND ETHICAL ASPECTS.....
3.1.	Regulatory Clearance
3.2.	Ethics Committee Approval.....
3.3.	Informed Consent.....
3.4.	Conduct of Study.....
3.5.	Compliance with Good Clinical Practice

Bookmarks

09.pdf	
□ ABSTRACT	
□ SUMMARY OF REPORT	
□ TABLE OF CONTENTS	
▼ □ 1.0. INTRODUCTION	
□ 1.1. Background Information	1. INTRODUCTION
□ 1.2. Rationale	
▼ □ 2.0. OBJECTIVES	1.1. Background Information

For each document provide Hypertext linking to

- annotations**
- related sections**
- references**
- appendices**
- tables**
- figures**

not located on the same page

Regulatory clearance for the study was obtained from each c
before the start of the study. Details of the regulatory authorities
participating country are provided in Appendix 3.

For each document Identify the document in the PDF Document information Title field

Title:	<input type="text"/>
Subject:	<input type="text"/>
Author:	<input type="text"/>
Keywords:	<input type="text"/>

Now NDA is a collection of individual files with:

- **bookmarks for the table of contents**
- **hypertext links to references off the page**
- **identification in the document information field**

Organizing the collection of PDF files based on items in FDA form 356h

- **Summary**
- **Labeling**
- **CMC**
- **Nonclinical pharmtox**
- **Biopharm**
- **Micro**
- **Clinstat**
- **CRT**
- **CRF**
- **Other**

Organizing the collection of PDF files

Place all files for each item in the appropriate folder

summary

labeling

other

cmc

pharmtox

cpbio

micro

clinstat

crt

crf

Organizing the collection of PDF files

Inside each folder may be additional subfolders

for example

CMC

environ

product

substan

For example biopharm

biopharm

PK

PD

drugint

invitro

subpops

assay

pubs

For each item include A table of contents

- **list all files for the item**
- **provide a hypertext link to the appropriate file**
- **include the location of the file**
- **if a portion of the item is provided as paper include the location of the paper by volume number**

For example

Clinstat Table of Contents:

Document	Volume number	File location
Indication - Allergic Rhinitis		
Controlled trials		
Study 09	1.25	clinstat/09/09.pdf
appendices		clinstat/09/09app.pdf
Study 10	1.30	clinstat/10/10.pdf
appendices		clinstat/10/10app.pdf
Study 2001	1.35	clinstat/2001/2001.pdf
appendices		clinstat/2001/2001app.pdf

For each technical item include

A full text index

- **Don't confuse with the table of contents**
- **Index of all words and numbers in the PDF files including the Document information fields**
- **Index consists of a index file (PDX file) and associated files contained in a single folder**

clinstat.pdx

clinstat

Indexing allows the reviewer to search:

- Text in a document
- Document information fields

The screenshot shows the 'Adobe Acrobat Search' dialog box. It has a title bar with a small icon and the text 'Adobe Acrobat Search'. Below the title bar is a section titled 'Find Results Containing Text'. This section contains a large empty text input field on the left and three buttons on the right: 'Search', 'Clear', and 'Indexes...'. Below this section is a section titled 'With Document Info'. This section contains four labeled text input fields: 'Title', 'Subject', 'Author', and 'Keywords'. A mouse cursor is pointing at the 'Title' field. Below the 'With Document Info' section is a section titled 'Options'. This section contains four checkboxes: 'Word Stemming' (checked), 'Sounds Like' (unchecked), 'Thesaurus' (unchecked), 'Match Case' (unchecked), and 'Proximity' (unchecked). At the bottom of the dialog box is a status bar that says 'Searching in the crf index.'

crt

crf

**Every file and folder to be archived
included in a single folder**

Protects the hypertext links in the PDF files

Provide an overall Table of contents for the submission

- **Paper submission table of contents to the level of each document's table of contents**
 - **in one location, hundreds of pages**
- **Electronic submission table of contents includes same information as paper**
 - **in multiple locations, electronically linked**

Electronic table of contents includes

NDA table of contents

- **located in the main folder**
- **lists all items in the submission**
- **hypertext links to each item's table of contents**

Item's table of contents

- **located in the item's folder**
- **lists all documents in the item's folder**
- **hypertext links to each document**

Documents table of contents

- **located in the document's pdf file**
- **lists all sections and subsections of a document**
- **bookmarks link to the sections**

If submission mixture of paper and electronic documents

Must have comprehensive table of contents in both paper and electronic format with

- **location of paper documents
(volume number)**
- **location of electronic documents
(path and file name)**

Table of Contents for NDA 123456 (n/a = not available)			
Item	Description	Paper volume number	Folder name
1	Table of contents (Index)	1	main folder
2	Labeling	n/a	labeling
3	Summary	n/a	summary
4	Chemistry section	1	cmc
5	Nonclinical pharmacology and toxicology section	5	pharmtox
6	Human pharmacokinetics and bioavailability section	n/a	cpbio
7	Clinical Microbiology	n/a	n/a
8	Clinical section	n/a	clinstat
9	Safety update report	n/a	n/a
10	Statistical section	n/a	clinstat
11	Case report tabulations	n/a	crt
12	Case report forms	n/a	crf
13	Patent information	n/a	other
14	Patent certification	n/a	other
15	Establishment description	n/a	other
16	Debarment certification	n/a	other
17	Field copy certification	n/a	other
18	User fee cover sheet	n/a	other
19	Other	n/a	other

Cover letter includes in addition to regulatory issues

- **A description of the submission**
- **A description of which portions of the submission are presented only in paper, only in electronic format, or in both paper and electronic format**
- **Verification that the submission is virus free**
- **A description of any deviation from the specifications in the guidance document.**

Provide FDA form 356h as a pdf file inside the main folder

- **On page 2 of the form, note by each item if the documents for the item are in**
 - **paper format,**
 - **electronic format,**
 - **or both paper and electronic format**

Archiving datasets

(check with reviewing division first)

SAS transport files

- **Case report tabulations**
- **Individual animal line listings**

Structured ASCII

- **CMC (in development)**
- **Biopharm (in development)**

SAS transport files

SAS transport version 5

- **processed by the XPORT engine with SAS Version 6 or 7**
- **processed by PROC XCOPY with SAS Version 5**

One data set for each domain

Possible Data Sets Files			
Background information		Results	
File name	Description	File name	Description
demog.xpt	Demographics	exposure.xpt	Drug exposure
include.xpt	Inclusion criteria	dispos.xpt	Disposition
exclude.xpt	Exclusion criteria	efficacy.xpt	Efficacy results
conmeds.xpt	Concomitant medication	adverse.xpt	Adverse Events
medhist.xpt	Medical history	lab_chem.xpt	Lab - chemistry
		lab_heme.xpt	Lab - hematology
		lab_urin.xpt	Lab - urinalysis
		ECG.xpt	ECG
		vitals.xpt	Vital signs
		exam.xpt	Physical examination

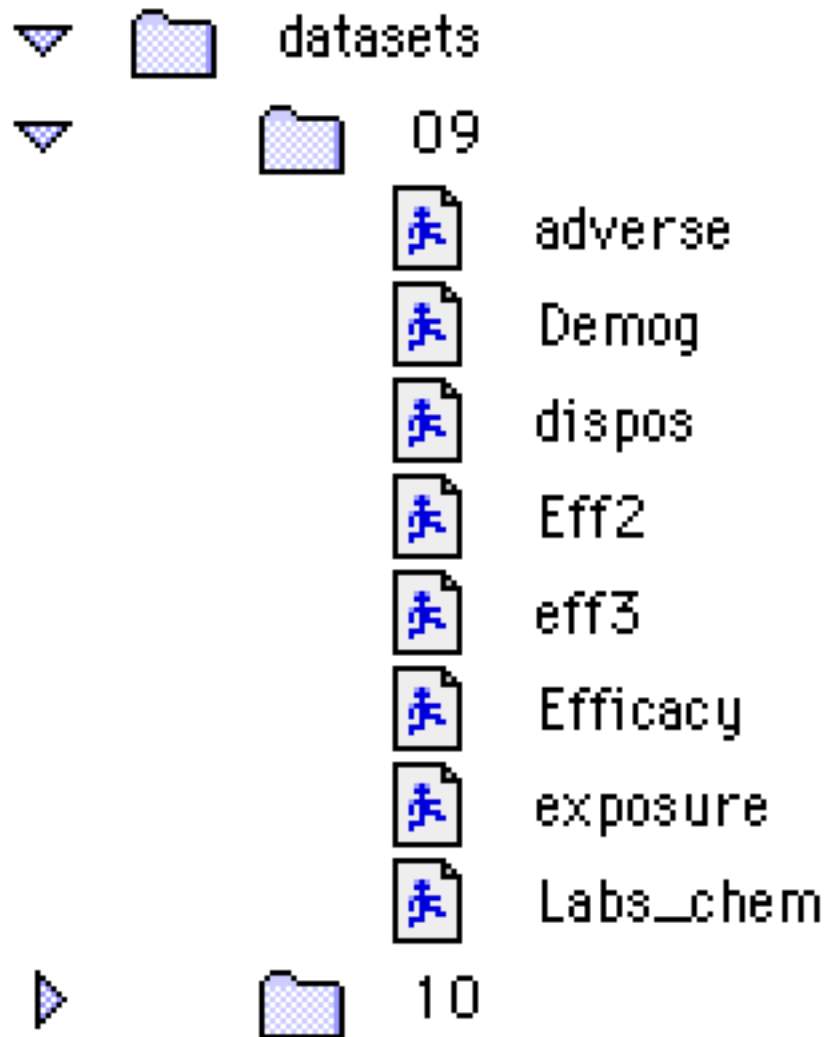

General considerations

- **Each subject should be identified with a single, unique number for the entire application.**
- **Each row should contain a single observation or result for an individual subject, allowing for multiple rows per subject.**
- **When at all possible, the same variable names and codes should be used across studies.**
- **Each data set should have patient ID, study, center/site, treatment assignment, sex, age, and/or race of the subjects.**

Organization of the data sets

- **Place all data sets in a folder with the study number**
- **Place all study folders in the datasets folder**

Organizing the data sets

In the dataset folder include:

Data definition table

- list of all variable names**
- descriptive narrative**
- data types**
- codes (and decodes)**

Data definition Table for Adverse Events for Study 201			
Variable name	Narrative description	data type	Codes
PATID	unique patient ID number	number	n/a
SEX	patient's sex	char	f= female, m= male
BDATE	birth date	date	n/a
TRT	assigned treatment	number	0= placebo, 5= 5mg

Organizing the data sets

Annotated case report form

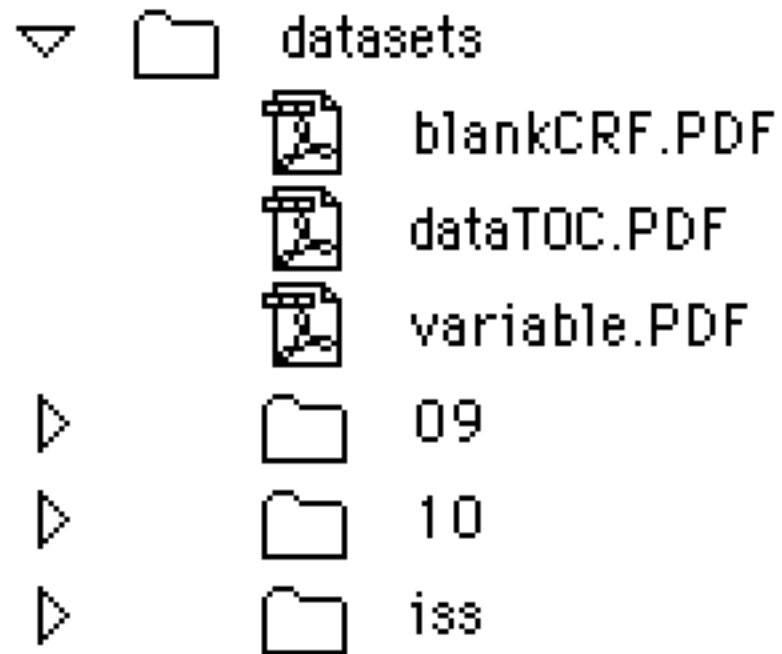

- **maps each blank on the CRF to the corresponding variable in the data base**
- **provide**
 - **file names**
 - **variable names**
 - **coding**

Organizing the data sets

Data sets table of contents

- **list all data sets**
- **description of the contents**
- **link to data definition table for each dataset**

Organizing the data sets

Special issues - Item 3

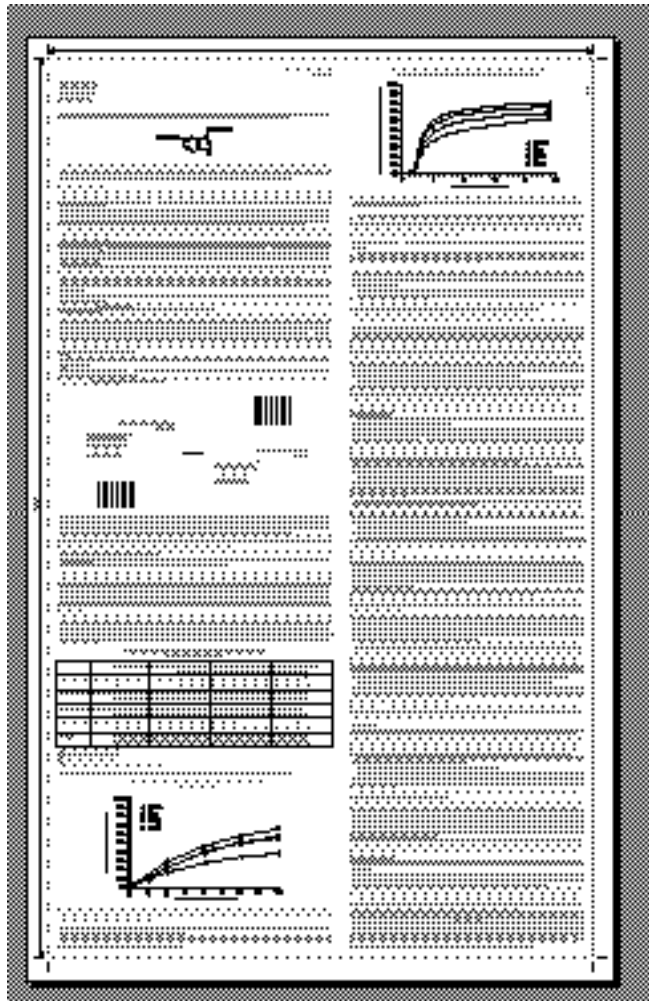

Labeling text

- **content of final printed package insert**
 - **all text**
 - **all bolding**
 - **all tables**
 - **all figures**

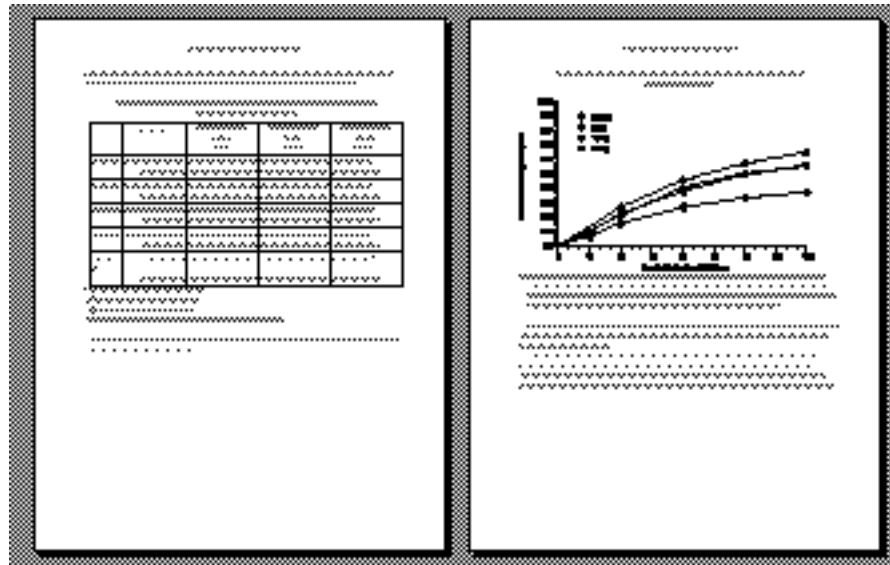

Labeling text

- **format**
 - **8.5 x 11 inches**
 - **portrait orientation**
 - **no columns**
 - **font sizes chosen for readability**

Final printed package insert

Labeling text

Labeling text

in Word format

- **review aid**
 - **editing**
 - **document comparison**

Special issues - Item 11 and 12

Case report tabulations and case report forms

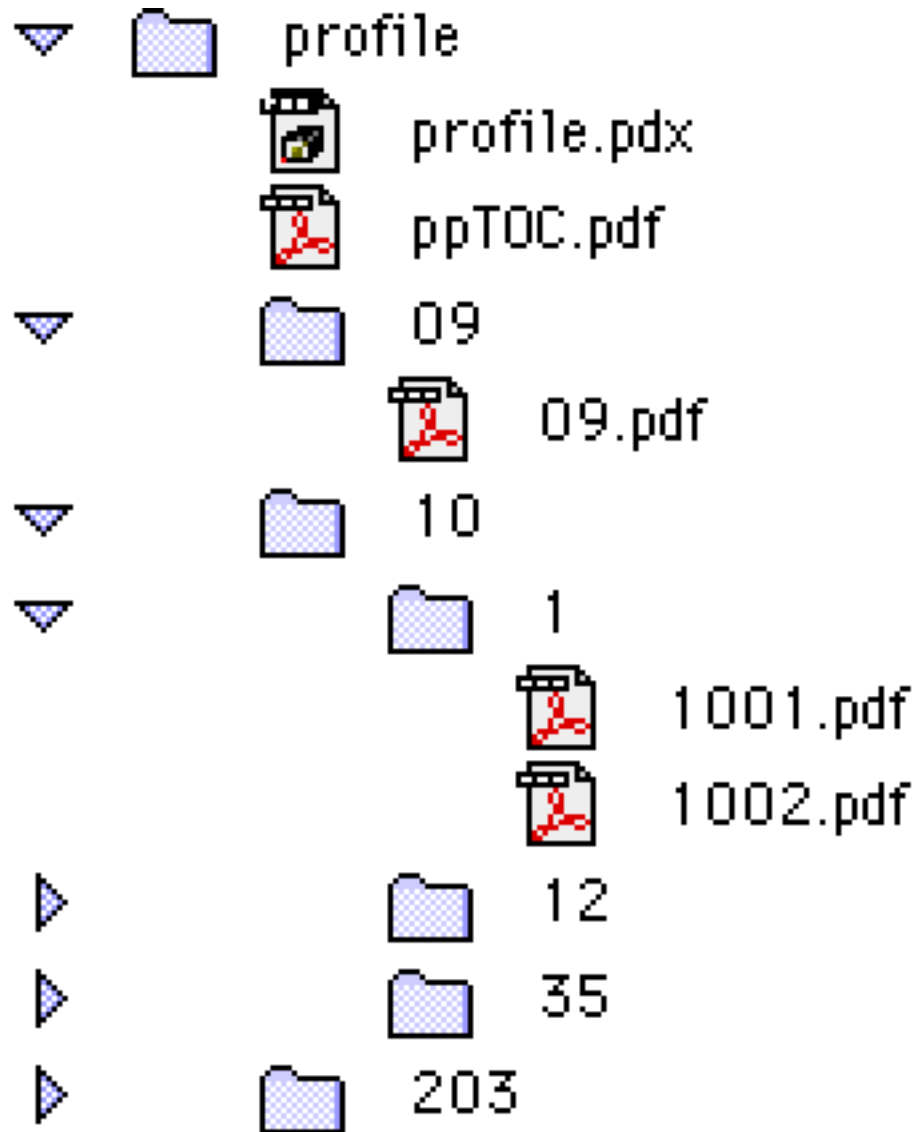

Two types of CRT

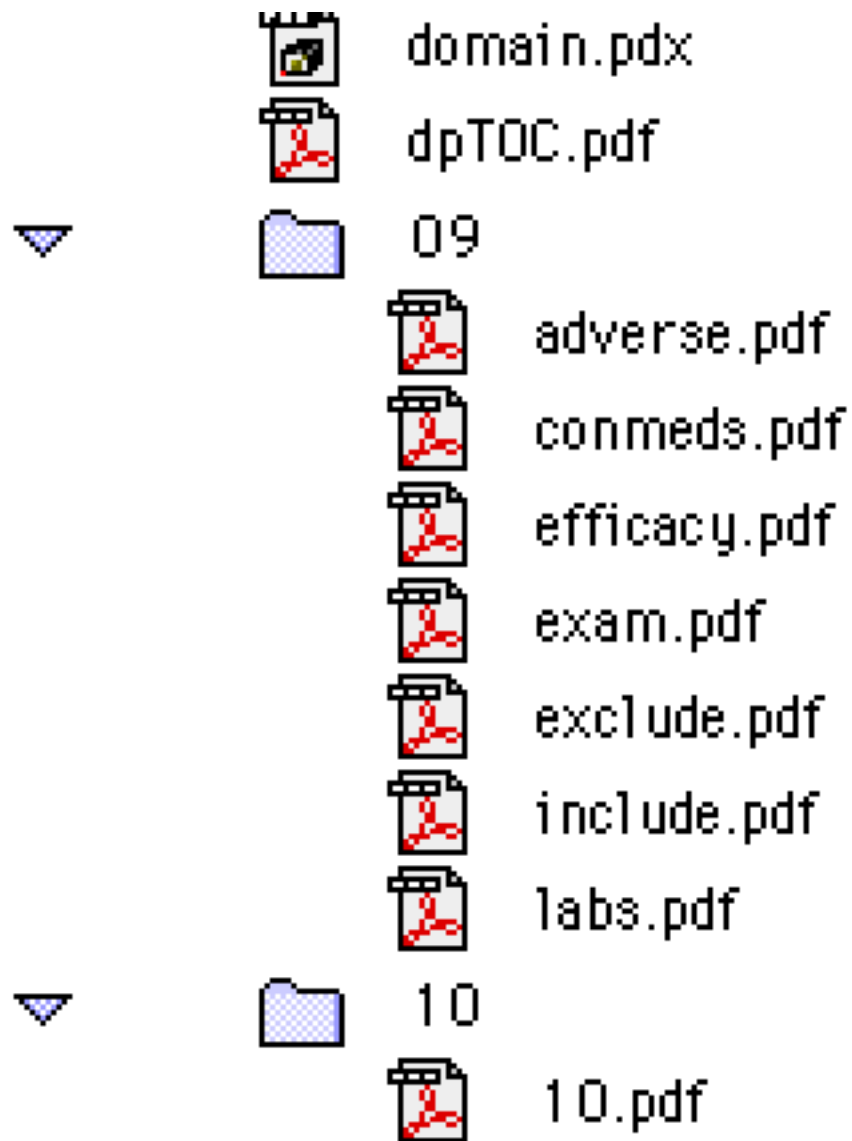

Patient profiles (similar to CRF)

- **all data collected for an individual patient organized by time**
- **format**
 - **PDF**

Domain profile (line listings)

- **all data collected for a single CRF domain from one study**
- **Format**
 - **PDF**
 - **SAS Transport**

Bookmark for brief Patient profiles and CRF Example

- All patient profiles from a study in one PDF file
- Bookmarks for site and patient

▼ site 1	
201-1-001	
201-1-002	
201-1-003	
201-1-005	
▼ site 2	
201-2-006	
▼ site 12	
201-12-007	
▼ site 34	
201-34-008

	sex
	race

Bookmark for longer Patient profiles and CRF

- **Bookmarks by study visit and/or domain** (this point inadvertently left out of draft guidance)

- ▶  Hematology
 -  Inclusion criteria
 -  Medical conditions
- ▶  Urine
- ▼  Vital signs
 -  baseline
 -  week 4
 -  week 6
 -  week 12
- ▼  Screening
 -  background informat
 -  Medical conditions
 -  inclusion criteria
 -  exclusion criteria
- ▶  Baseline
- ▶  Week 4

Alternative to bookmarks for longer Patient profiles and CRF

- **Table of contents for each individual patient's CRFs as an alternative to bookmarks** (this point inadvertently left out of draft guidance)

Case Report Form -example

Title of Form	Page number
Index	1
Title	2
Inclusion/exclusion criteria	3
Demography	4
Current medical conditions	5
Vital signs	6
Pharmacokinetic sampling	9
Trial medication	10

Review copy

Format

- **paper desk copy**
- **accurate and complete copy of the archival document**
 - **use the archival PDF file to generate the paper review copy**

Review copy - organization

- **Collection of documents**
- **Each document separated by volumes
(or tab dividers within volumes)**

Review copy table of contents

- **location of each document by volume number(s)**
- **location of the archival PDF file by folder/file name**

No paper review copy for

- **assay validation reports**
- **individual animal line listings**
- **clinical study report appendices 16.1.3 to 16.4 (see ICH E3 guidelines)**

Review aids

- **supplied as desk copies**
- **not considered part of the archival submission**
- **consult with CDER's Office of Information Technology (OIT) concerning any review aid that requires connection to CDER's network or may require OIT resources**
- **media based on what the review division can handle**
- **review aids sent to review division document room**
